

## **Something for everyone?**

The Meldreth, Shepreth and Foxton Rail User Group has put out a mid-winter appeal to local garden centres for any unwanted stock that may be used at our new station gardens. We have gratefully received compost in damaged bags (the compost is just fine) and a massive supply of flower and vegetable seeds (still perfectly good but officially past their shop-life).

We are now looking ahead to June when we'll need to be planting up the platform tubs at each station, and planning our flower and veg garden at Meldreth and our wildlife garden at Shepreth.

One way that you can help support these garden efforts is to cultivate some plants from seed for us, at home in your greenhouses or on your windowsills. In return, perhaps there are some unusual seeds from our large stock that you would like to use in your own garden.

If you're interested, please let me know: [susanvandeven@yahoo.co.uk](mailto:susanvandeven@yahoo.co.uk).
